

Emily Bonham

4140 Workman Mill Rd, Unit 14, Whittier, CA 90601
PHONE 949.291.6136 · EMAIL emily@redapplefalls.net

Seeking a full-time commitment to create innovative, exceptional websites as a skilled PHP programmer with a forward-looking company in the San Gabriel Valley, downtown area of Los Angeles or north Orange County.

SKILLS

Languages

CSS (10 yrs)	(X)HTML (hand - 10 yrs)	JavaScript (5 yrs)
ASP (4 yrs)	PHP (6 yrs)	SQL/MySQL (7 yrs)

Basic understanding/comfortable working with:
jQuery, ASP.net, C#, Perl

Applications & Technologies

AJAX, phpMyAdmin, MS Visual Studio, Photoshop, Illustrator, Dreamweaver, Subversion (SVN), PuTTY (secure shell), Agile Development Methodology, TRAC Project Management Software, CubeCart (ver. 3 & 4), Magento eCommerce, FireBug

EXPERIENCE

Grubb & Ellis, Inc.	2009-2010
<i>Designer, UI Engineer, PHP & mySQL Programmer</i>	<i>Santa Ana, CA</i>

- ◆ Solely designed and developed a powerful Events Management web app from the ground up. All graphics were created using Photoshop. Created hand-written (X)HTML, CSS and JavaScript scripts for front-end code while back-end code relied on PHP code integrated with relational MySQL databases.
Custom-built features & tools developed include:
 - Secure login-enforced Admin Control Panel; multi-level admin account login with controlled site access dependent on admin user type; private SSL Certificates implementation.
 - Advanced customization for event details such as design themes, content templates and multiple-step form creation.
 - Event & registrant reporting tools with export (CSV) capabilities.
 - Registrant account creation allowing users to register for events more quickly.
 - Event agenda creation with detailed control of multiple registrant types, fees, opt-in/included settings and custom form field creation.
 - Custom file manager with upload & deletion abilities.
- ◆ Designed graphical UI and developed entire web site for Circle of Excellence 2009 & 2010 events using HTML, CSS, PHP and MySQL.

Shopzilla.com	2007-2008
<i>User Interface Engineer</i>	<i>West Los Angeles, CA</i>

- ◆ Worked as lead Front-End Developer for Shopzilla's US Consumer Site, focusing primarily on creating a more positive overall user experience and stronger customer loyalty. Later moved to the International Consumer Site team as lead Front-End Developer for Shopzilla & Bizrate's UK, German and French Consumer Sites.
- ◆ Created web templates for A/B Testing, dynamic menus & pop-ups, global UI pieces and the like using (X)HTML, CSS, JavaScript, and Perl.
- ◆ Greatly improved personal project management and task estimation skills through Agile methodology classes and daily use of Agile web development methodology, Rally Software tools, and TRAC Project Management Software.
- ◆ Used Subversion (SVN) version control system to access and edit files.

Shoes.com

2006-2007

UI Engineer, ASP/.net Developer

Los Angeles, CA

- ◆ Developed and maintained the Shoes.com web site, and other Shoes.com & affiliated sites using advanced CSS, (X)HTML and JavaScript, with a strong focus on usability, cross-browser application, and SEO. Developed and updated ASP scripts for use in various areas of the web sites.
- ◆ Led technical aspects of partnerships with Microsoft and Cactus Commerce engineers to develop, convert, and debug the shoes.com web site from an ASP platform to an ASP.net platform.
- ◆ Responsible for maintaining and tracking tasks & defects for various projects that the Los Angeles and St. Louis dev teams worked on.

PORTFOLIO

Web Development Sample Links

<http://murney.dreamhosters.com/>

(Still under development) Completed the PHP and much of the MySQL development for this site while working at The Design People.
